

Forty Seven, Inc. is committed to the advancement of immuno-oncology through the engagement of new and complementary phagocytic pathways that enhance anti-tumor efficacy and selectivity.

**TITLE: PRECLINICAL IN VIVO ONCOLOGY; RESEARCH ASSOCIATE**

**POSITION SUMMARY**

Forty Seven, Inc. is a clinical-stage biotech company that is pioneering breakthrough solutions to advance the next generation of immune-oncology treatments. We are seeking a Research Associate that will be responsible for in vivo pharmacology studies using mouse models to support pre-clinical R&D of therapeutic targets and pathways. This individual will contribute across different stages of pre-clinical drug discovery and clinical development to identify new immuno-oncology targets. This position will report to a Principal Scientist.

**TASKS AND RESPONSIBILITIES**

- Conduct *in vivo* pharmacology studies in cancer immunology using solid and hematological mouse models
- Requires hands-on proficiency in handling rodents and administering drug therapeutics via various routes (e.g. IV, IP, PO)
- Tumor engraftment, and performing biological assessments (e.g. caliper measurements and bioluminescence imaging)
- Collection of blood, tissue samples and organ harvests and bone marrow aspirates for analysis
- Proficiency in in vitro cell culture, cell culture scale-up for implantation, cell banking and maintenance of frozen stocks
- Experience in preparing basic formulations and dosing solutions
- Experience in FACs-based analysis and cell sorting preferred
- Provide laboratory support for all experimental activities involved in the studies
- Maintain detailed observations and records of experiments, analyze data and interpret results
- Manage multiple projects in a fast-paced environment.

**PREFERRED BACKGROUND**

- Degree (B.S. or M.S) in the biological sciences
- Background in oncology and/or cancer immunology a plus
- Experience in biotech or pharmaceutical industry preferred
- Strong attention detail and have excellent organizational skills
- Excellent communication and interpersonal skills

**LOCATION:** Menlo Park, CA
